

2022 MBE Published Rates Information

During these unprecedented two years, we have all been called to face socio-economic scenarios which reinforced our sense of community and cohesiveness, enhanced our capacity to look at the future and to innovate, and forged our resilience. Our roots are today as solid as our vision, and both are faithful to the main principle that puts our customers at the core.

Therefore, we are proud to communicate that in 2021 we increased our investments in technology to accelerate the digitization process and to strengthen MBE's unique positioning in the market as a platform of digital-ready shipping, fulfillment, marketing, e-commerce and print solutions.

Our commitments for 2022 fully embrace this direction, with the objective to assist our customers throughout their business challenges, providing them with professional solutions that are increasingly up with market trends and requirements.

In this context, Mail Boxes Etc. (hereinafter "MBE") informs that with effect from **January 1st 2022** a revision of the shipping price lists will be applied in order to guarantee the high levels of service that distinguish the MBE Network and which are the main reason for which end customers choose MBE entrepreneurs every day as partners for their activities.

The prices of domestic and international services will increase **on average by 5,9%**, while surcharges for additional handling/parcels, large packages, non-stackable pallets, will be applied in a more extensive manner.

Never more than today, it is a duty for us to thank all the customers who constantly choose the MBE Centers as logistics partners, thus rewarding our commitment to intercept customers' needs and provide a high value-added portfolio of solutions: MBE Online, MBE e-LINK, MBE SafeValue, MBE MyLogistics, MBE Print Online, MBE Web Services, to mention a few.

Finally, we remind you that the MBE Centers are managed by independent Entrepreneurs who operate under the MBE brand as a result of a franchise contract.
